

## **KEVIN A. KELLY**

*Delivering Professional Development Across the Educational Spectrum*

As a lead consultant with Houghton Mifflin Harcourt's Learning Solutions Group, I engaged with educators and administrators at every level and in every type of setting throughout the eastern United States. Engineering comprehensive systems of academic interventions with reliance upon Houghton Mifflin Harcourt's digital learning products, my clients included private, public and charter institutions - urban and rural, small and large - ranging from elementary and secondary schools through adult education centers and community colleges.

Working in such a diversity of settings with equally diverse needs increased my mastery of remediation and intervention as well as my understanding of the unique challenges that arise among educators and learners alike. There are no one-size-fits-all solutions in education as it is a purely human endeavor demanding individualized approaches for optimal success.
